

Then Came You

A Song by Vernon Louis Hicks

Oooooo ooo yeah, yeah
Ooo girl, you changed my life

I'm so happy
Listen
I was confused
Lovin' just to be lovin'
Gettin' off the run
I must confess
Missing all your tenderness
Life was empty and no fun (Then came you)

You turned my life around
(Then came you)
I'm like a long-lost child
That's just been found
(Then came you)

I was ready to throw it all away
Given up on love
You brought me back today
You are the first
That let me feel desire
Now my heart belongs to you

Many people spend their lifetimes
Looking for their love
That your made of (Then came you)
You brightened up my life
(Then came you)
A love first delight
(Then came you)
You are my sunshine
All the time
Your love takes me higher
Than the clouds

(Then came you)
You turned my life around
(Then came you)
I'm like the long-lost child
That's just been found
(Then came you)
You are my sunshine
All the time
(Then came you)
Your love takes me higher
Than the clouds
(Then came you)

I was ready to throw it all away
'Cause your love brought me better days, yeah
Oh, right now

One love
One heart
One life (Then came you)
I love you for all time
You turned my life around
(Then came you)
I'm like a long-lost child
That's just been found
(Then came you)

You are my sunshine
All the time
(Then came you)
Your love takes me higher
Than the clouds
Yeah (Then came you)
I was ready to throw it all away
(Then came you)
I'd given up on love
Until you brought me back today
Well
You came into my life
Made me happy
