

Captured

A Song by Vernon Louis Hicks

*Wasn't lookin' for love no more
Been down that road before
Didn't want to try again
Didn't think that I would win*

*Tried to push your love away
Thought if I started you won't stay
You proved your love was true
My heart belongs with you*

*I'm captured by the love of your heart, babe
I'm captured by the depth of your soul
Love means everything to me
I respond to honesty
Give your best to me
And my love will always be with you*

*Dropped my guard to let you in
So, didn't know where I end, and you begin
Where you begin
Felt so good
Felt so true
All I know is one heart beats for two*

*We are captured by the love of your heart, babe
Captured by the depth of your soul
Love means everything to me
I respond to honesty
Give your best to me
And my love will always be with you*

*Hey
I'll never get enough of you
Since you've come into my life
The sun shines just for me
Our eyes meet
Our lips touch
I feel free
Oooohhh
Captured by the love of your heart, babe
Captured by the depth of your soul
Love means everything to me
I respond to honesty
Give your best to me
And my love will always be with you*

*Captured by the love of your heart, babe
Captured by the depth of your soul
Love means everything to me
I respond to honesty
Give your best to me
And my love will always be with you*

*Captured by the love of your heart, babe
Captured by the depth of your soul
Love means everything to me
I respond to honesty
Give your best to me
And my love will always be with you*

*Captured by the love of your heart, babe
Captured by the depth of your soul
Love means everything to me
I respond to honesty
Give your best to me
And my love will always be with you*
