

It's You That I Need

A Song by Vernon Louis Hicks

*You're all that I need babe
You're all that I need babe*

*You will always be as sweet as you are
And like the stars
Will you forever shine
Your light on me
Yeah
For ya see
It's you that I need
For the rest of my life*

*I hear sweet love would be
When you are near
Your love is so dear
And it's by your side
I want to be babe
(For the rest of your life)
Yeah
For you see
Yeah
It's you that I need*

*Every day seems like a holiday
(When I see your face or hear your
voice)
When I see your face or hear your voice*

*(Your love has been so good to me)
Your love has been so very good to me
It's you that I need*

*(I'm the one who brings joy into your
life)
(I'm the one that takes you higher than
the sky)
It's you that I need
(You're the one that changed my
darkness into light)
And with your love my baby
I can do anything (I can do anything)
Say it again (Say it again)
(I'm the one who brings joy into your
life)
It's you that I need
(You're the one that takes me higher
than the sky)*

*Oh, you that I need, yeah
(You're the one that changed my
darkness into light)
It's you that I need babe
You that I need*

*Every day seems like a holiday (Seems
like a holiday)
(When I see your face or hear your
voice)
When I see your face or hear your voice
(Your love has been so good to me)
Your love has been so very good to me
It's you that I need*

*(I'm the one who brings joy into your
life)
Oh yeah
(I'm the one that takes you higher than
the sky)
It's you that I need
(You're the one who changed my
darkness into light)*

*Love you baby
Need you baby
Want you baby
It's you that I need*

*(I'm the one who brings joy into your
life)
Say it again babe
(You're the one that takes me higher
than the sky)
It's you that I need
(You're the one that changed my
darkness into light)*

*It's you that I need babe
Babe, it's you that I need
(I'm the one with all the love you can
believe babe)
I'm the one babe
(I'm the one who brings joy into your
life babe)
(I'm the one that takes you higher than
the sky babe)
(You're the one that changed my
darkness into light)*
